Milking Parlor Cleaner

Chemical Name: CIRCO Extreme AFM & SFM

Product Details:

Usage	Industrial
Physical State	Liquid
Grade Standard	Technical Grade
Packaging Size	25 / 35 KG
Packaging Type	CAN

Product Description:

On the wave of success with **Circo Extreme** Milk producers swim safely on a wave of success with the **Circo Extreme AFM** and **SFM**. The recipe of the liquid cleaner is especially developed for milking systems and ensures for thorough hygiene reliably with each cleaning interval.

Condenser & Cooling Tower Cleaner

Chemical Names:

- HYDRO ALUMINO SALFON 30
- ACIBASO N-10
- INHABITOR AC-60

Product Details:

Usage	Industrial
Physical State	Liquid
Grade Standard	Technical Grade
Packaging Size	25 / 30 KG
Packaging Type	CAN

Product Description:

Backed by the latest technology, we are introducing the new **Condenser & Cooling Tower Cleaning Chemical**. These chemicals are widely used to clean and disinfect the cooling towers, heat-exchangers and condensing systems. Coming with their eco-friendly nature and non-tainting properties, our products are well-liked among the customers. Moreover, these products come with the exceptional low toxic.

Features:

Easy cleaning
Eco-friendly nature
Low toxicity

Use to remove:

Rust and iron oxides
Lime & Sulphate
Stains
Mineral sediments
Thin layers of concrete cement
Mortar
Scale and other deposits

Applications:

Cooling towers
Heat exchangers
Condenser systems
Boiler units
Pipes and tubes
Construction equipment

Evaporative Cooling Pads Cleaner

Chemical Name:

- ACETO KLEEN ASL-60
- CETA KLEEN CL-15

Product Details:

Usage	Industrial
Physical State	Liquid
Grade Standard	Technical Grade
Packaging Size	25 / 30 KG
Packaging Type	CAN

Product Description:

Backed by the latest technology, we are introducing the new **Cooling Pads Cleaning Chemical**. These chemicals are widely used to clean and descale the cooling Pads. Coming with their eco-friendly nature and non-tainting properties, our products are well-liked among the customers. Moreover, these products come with the exceptional Non toxic.

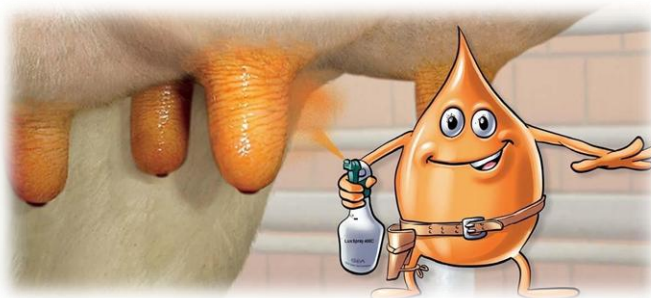

Features:

- Easy cleaning
- Eco-friendly nature
- Non toxic

Use to remove:

- Rust and iron oxides
- Lime & sulphates
- Stains
- Mineral sediments
- Scale and other deposits

LUQSPRAY 400L

There's no better way to spray or Dip

Farm Mixed Iodine Teat Dip

Concentration Hard on

Pathogens, soft on the teat skin!

BENEFITS:

Effective spraying or dipping means healthy animals!

LUQSPRAY 400L means you benefits from a time-saving work routine and maximum throughput thanks to perfect teat healthy.

-weather spraying or dipping LUQSPRAY 400L offer high protection against Mastitis causing microbes.

Safeguard your milk protection against loss of output by regular use of the fast-acting, germs-killing LUQSPRAY

Concentrated disinfection power by high iodine content of 4% iodine Concentrate Long lasting disinfection effect Reduced new infections Double action care ingredient Versatile: also suitable for sheep and goats

Available in: 22 / 220 kg jerry Cans

LEO GROUP OF COMPANIES

MARKETED BY: LEO DAIRY TECHNOLOGIES
PROCESSED BY: AQSA CHEMICALS
